Profile

I am Addis Fenta, Graduated from Bahir Dar University in Software Engineering. Currently I work as full-stack web developer using MERN technology, with excellent experience on both Frontend and backend development.

Working Experience

MERN stack development

February 19, 2023 - Present

I am working as MERN stack developer at **Skylight Technology**. I use React and Tailwind CSS to build responsive and user-friendly websites and I use Node/Express to build backend APIs.

HTML, CSS & JavaScript development

September 13, 2023 – February 7, 2023

I work as a Freelancer & part-time web developer using HTML , CSS & JavaScript in different companies and teams.

Internship Program

March 3, 2022 – August 30, 2022

I attend my Internship program at **Addis Media Network,** and I develop my internship project titled with "News Board" using Python and Django.
